GOVT. OF M. Dy

The Secretary to Government,
Development Department (Supplies),
B A N G A L O R E.

Sir,

Subject: Grant of overtime allowances to the Ration Census Staff in Bangalore City.

Adverting to Government Order No.SD.3861-3/A.114-43-11 dated 9th December 1943, on the above subject, I have the honour to forward herewith a copy of letter No.RC.237/43-44 dated 4th January 1944 from the Chief Ration Census Officer, Bangalore City in the matter, and to request that in the circumstances explained by him, Government may be kindly moved to reconsider the question.

The Ration Census Officer states that he had to get this work done overtime as otherwise the work would not have been over even by 10th December and would have involved extension of the entire establishment involving more cost and the new cards could not also have been introduced even in December.

The extra cost on account of overtime will be Rs. 300/- which if t establishment had been continued the cost would have been Rs. 1,628/-.

The Census Officer also reports that due to want of staff several posts were unfilled and there have been a saving of Rs. 695-12-0 per mens for two months and this small expenditure could be met out of these savin

I have the honour to be,
Sir,
Your most obedient servant,

DIRECTOR OF CIVIL SUPPLIES.

Letter No.Re.237/43-44 dated 4th January 1944, from the Chief Ration Census Officer, Bangalore, to the Director of Civil Supplies in Mysore, Bangalore.

With reference to your memo No.11661 dated 11th December 1943 communicating the orders of Government re: the extension of the term of this office establishment till 10th December 1943 and regretting that the overtime allowances recommended cannot be sanctioned, I have the honour to invit reference to my letter No, dated 7-12-1943 and to state as follows:-

2. The nature of the work itself being quite new, I must confess at the outset, that my estimate of the time required for the turnover for the work involved, proved to be an underestimate. The checking of the information received in respect of 62,000 card holders, the tabulation of information, the calculation involved and the writing up of as many cards, involved very heavy overtime work on the part of my staff, even to complete it within the 10th December 1943. Though I was reluctantly forced to ask for extension of time till the 10th December, still I was anxious not to postpone the work any further as numerous representations would come and it would naturally take some time for us to enquire into them and this could best be done against the back ground of preexisting cards. With this end in view, I insisted upon the work being completed by the 10th December 1943. For want of electric lights on the premises, I had even to supply petromax lights on several days, to enable my staff to work over nights. Under the normal circumstances the work would easil have taken us till the end of December and the extra expenditure for 20 days would have been Rs. 1,628/- against about Rs. 300/- recommended as overtime allowances.

3. I considered the advisibility of offering the inducement of an overtime allowance of Rs. 5/- for every 1,000 cards written. I felt that the extra work was so heavy that, unless some extra inducement was offered the ~~would~~ work could not be completed even before the 10th December 1943 and that the offer of the small inducement (which is really small compared

with the extent of work involved) was the only means of getting through the extra work in time. Since there was no time for me to await orders of Government before I made the pronouncement, I anticipated the sanction of Government and I announced the allowances to my staff.

4. If, in these circumstances, I was wrong in having made the announcement, in anticipation of sanction, I may kindly be excused, but I have given my word and I request that it may kindly be honoured and the over time allowance sanctioned, in the special circumstances explained.
